Laboratory Facilities

Material and swabs are examined at the Clinical Research Laboratories.

Ambulance Facilities

An Ambulance for the use of infectious cases is provided by the Staines Joint Isolation Hospital.

Local Ambulances are used for non-infectious cases.

SANITARY CIRCUMSTANCES OF THE AREA

Water

There has been no extension of the Public Service mains during the year.

Five samples of water taken from public service mains for bacteriological and chemical analysis, nine samples were taken from local wells, one from a stream and two from a swimming bath. The results of the examination of the samples from the Public Service mains were satisfactory

Action was taken for provision of a proper supply where necessary.

Drainage and Sewage Disposal

Work of sewerage in Stanwell Ward is nearing completion.

Work of connecting drains to the sewers in Ashford, Laleham and part of Stanwell has continued during the year.

Public Cleansing

No change from last year.

Rivers and Streams

No action was necessary during the year.

Camping Sites

Camping on the river side at Laleham was again in evidence but again not to such an extent as in the previous year.

Smoke Abatement

No nuisance was caused during the year.

Schools

No action was necessary for the remedy of sanitary defects during the year.

Premises and Occupations in the District Subject to Control by the Local Authority

Camping sites and moveable dwellings.

Offensive Trades.

Slaughter-houses.

Houses let in Lodgings.

Establishments for massage and Special Treatment.

Hairdressers' and Barbers' premises.

Legislation in Force in the Urban District of Staines

Public Health Act, 1875 (part of).

Public Health Acts (Amendment Act 1890) (part of).

Private Street Works Act, 1892.

Public Health Acts Amendment Act, 1907 (part of).

Inspection and Supervision of Meat and Other Foods

Forty six premises are registered as being used for the preparation or manufacture or storage of Ice Cream intended for sale.

Forty two premises are registered as being used for the preparation or manufacture of preserved food intended for sale.

All these premises are inspected periodically and oftener as occasion demands.

Meat in shops and stalls is examined weekly when possible.

ADULTERATIONS ETC.

Action for detection and prevention of adulteration of food is taken by inspectors of the Middlesex County Council excepting in urgent cases on complaint when action is taken by the Sanitary Inspectors.

Notifiable Diseases

Measles accounted for four deaths and Diphtheria for two.

1353 children were successfully immunised against Diphtheria during the year.

This compares most favourably with the total for 1940 which only reached eighteen.

No child who had been immunised developed Diphtheria.

I enclose charts showing the numbers of the various diseases notified and their age groups.

I also append a list showing causes of death during the year.

I have the honour to be, Ladies and Gentlemen,

Your obedient Servant,

A. C. MANN.

STAINES URBAN DISTRICT COUNCIL

TO THE CHAIRMAN

AND

MEMBERS OF THE PUBLIC HEALTH
COMMITTEE

ANNUAL REPORT

OF THE

SENIOR SANITARY INSPECTOR FOR THE YEAR,
1941

MR. CHAIRMAN, LADIES AND GENTLEMEN,

It is with pleasure that I submit a report containing particulars of the duties carried out in the Public Health Department of the Urban District of Staines during the year ending December, 1941 by your Sanitary Inspectors.

Owing to the introduction of a system of centralised slaughtering the number of carcasses examined in private slaughter-houses is not so great as in recent years, but the staff have been fully employed in many and varied duties imposed on Local Authorities as results of the War.

I thank the Members of the Committee and the Council for the interest taken in all matters I have had to place before them for consideration during the year.

Your obedient Servant,

CHARLES RODGERS,

Senior Sanitary Inspector.

9th. March, 1942.
